Treatment Recliner

# OASIS RECLINER

Thoughtfully designed and engineered for use in rigorous 24/7 healthcare environments, the Oasis recliner from Linet certainly lives up to it's name.

Generously padded all over, and with a gas cylinder mechanism allowing infinite recline positioning, the Oasis recliner is a treat to relax in. And that's important because, as we all know, hospital environments are often far from relaxing.

Equally important to patient comfort is ease of operation for the care-giver. When developing the Oasis Recliner we gave extra consideration to this, which is evidenced in the features below.

Arm cap is available in your choice of wood or polyurethane.

Shown with black poly arm caps

## FEATURES
