arezzo

3-postion sleeper

Comfortable, versatile and extremely accommo-
dating, the innovative Arezzo Sleeper provides an
attractive 3-position seating/sleeping patient rooms.

The Arezzo Sleeper - which can be specified to
open to the left or the right - is ideal for small spac-
es unable to accommodate a typical sleep surface
that pulls out into the room.

Our designers are mindful of the growing trend
toward smaller patient rooms, and the Arezzo
Sleeper was designed to address this. Also in mind
was the rigors of a 24/7 healthcare environment.
The thick-walled tubular steel framework is
extremely durable, designed to exceed the
demands of the environment into which it is placed.

What's more, the proprietary central locking
system allows caregivers and housekeeping staff to
operate and move the sleeper with ease.

LINET seating products are
Level Certified. To learn more, visit
