SURFACE OPTIONS

Multicare LE is designed with open architecture to allow flexibility to choose a surface that meets your specific wound care needs. Regardless of the surface, our Ergoframe[®] positioning system moves in harmony with the surface to help reduce pressure in the sacral area as the bed articulates.

- iGel advanced pressure redistribution mattress
- Bodyzone[™] prevention mattresses

i-Drive®

- Automatic 5th wheel
- Enhances maneuverability of bed during transport
- Retracts when not in use

C-Arm Compatible

- Column construction provides open under bed clearance to accommodate a majority of C-arms
- Radiolucent deck

Consider the Difference

With increased safety to prevent accidental bed movement, press any green "GO" button first to wake up the bed and adjust its position.

ErgoFrame®

- Helps reduce patient migration to foot of the bed
- Auto-contour button raises head and knee simultaneously to maintain position and increase comfort
