

Overbed Tables

LINET offers two lines of overbed tables to meet your facility's needs. Customize your overbed table with the modern Avalon series or choose from the economic Solido line for a functional solution LINET overbed tables are built with an ultra low base that fits under any bed frame for easy mobility.

SOLIDO

The economic Solido overbed table is designed for modern healthcare environments. The top is made of laminate with a durable metal base. Choose between a fixed eating board or tiltable eating board.

Please note, the Solido overbed table does not come with additional options for customization.

AVALON

The Avalon overbed table contains a range of design options that can be customized to meet your needs including thermofoil tops with a variety of shape and finish options. Accessories are available for customization and to further enhance infection control initiatives.

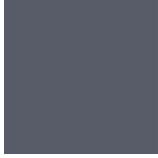

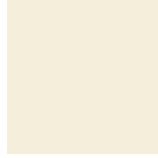

See reverse side for Avalon customization options.
