voyage
healthcare seating collection

voyage

Setting a whole new standard in healthcare seating products, Voyage embodies forward-thinking design concepts, evidenced in the features detailed below.

Consider the replaceable seat and back upholstery covers and the rugged nylon-webbed steel seat frame, held solidly in place with metal-to-metal fasteners. Take note of the large handgrip, the clean-out spacing between seat and back, and the wall-saver rear leg design.

Featuring innovative and proprietary construction methods, the Voyage Collection is easily one of the most durable on the market - yet does not sacrifice good looks to achieve this! In fact, its distinctive transitional design lines will complement virtually any healthcare lobby/lounge environment.

Built to last, and easily updated and renewed in the field, Voyage is a practical choice when it comes to exceeding healthcare requirements. Choosing Voyage will be a decision you'll be glad you made, not just tomorrow but next year, and the year after... and for many years to come.

LINET seating products are Level Certified. To learn more, visit www.levelcertified.org.

features
